

## **Controller (m/f)**

### **About AiCuris**

AiCuris (anti-infective cures) is a pharmaceutical company located in Wuppertal, Germany, which is active in the research and development of innovative treatments for infectious diseases. AiCuris was founded in 2006 as a spin-off from Bayer HealthCare and our mission is to discover and develop novel antiviral and antibacterial therapies for the treatment of serious and often life-threatening infections.

AiCuris is actively undertaking the clinical development of a broad pipeline of novel drug candidates. AiCuris, furthermore, has a strong commitment to in-house research projects and is currently active in both the antibacterial and antiviral fields.

### **The Position**

AiCuris wishes to appoint a professional with experiences in budgeting, target-performance-comparisons and analyses that provides our management and project-leaders with financial information and will be responsible for our financial planning and controlling. The position should be occupied by 1<sup>st</sup> of July, 2010.

### **Main tasks & responsibilities**

- Budgeting of our R&D projects in close collaboration with our project leaders and experts as well as our CFO
- Corporate Budgeting
- Preparation of monthly financial management information and a detailed quarterly reporting of our projects and other financial reports
- Supervision of cost allocation and verification of incoming invoices for significant costs
- Support of our Business Development Team with financial forecasts and analyses of different scenarios including NPV calculations
- Consulting for management and project leaders regarding economic aspects of all business decisions
- General administrative support of our CFO and the finance and patent team

### **Experiences & competences**

- Degree in economics with focus on controlling and/or finance
- Experiences in controlling, preferably in R&D projects
- Excellent skills in analytic and strategic thinking for project & company management issues
- High intrinsic work motivation and proactive, self-reliant work attitude
- Focus on practical problem solving
- Ability of driving processes and motivating cross-departmental teams
- Strong communication and presentation skills, fluent in spoken & written German and English
- Very good knowledge of MS-Excel, and familiar with other MS-Office applications

**How to apply**

To apply, please submit your full application including your curriculum vitae and salary requirements exclusively via email!
